ABOUT DCNEO:

Dancing Classrooms is a 10 week – 20 session social development program for fifth and eighth grade children that utilizes ballroom dancing as a vehicle to change the lives of not only the children who participate in the program, but also the lives of the teachers and parents who support these children.

Dancing Classrooms is not about teaching ballroom dancing. The dance is the tool for getting children to break down social barriers, learn about honor and respect, treat others carefully, improve self-confidence, communicate and cooperate, and accept others even if they are different. The results show an improvement in student attendance, behavior, classroom culture, and family engagement. All conditions for learning which lead to improved academic performance.
